SUMMARY

Security operations analyst with hands-on incident response across 300+ client organizations. Resolves high-impact incidents — Business Email Compromise, account takeovers, malware, and phishing — in 1–3 minutes using SentinelOne, Wazuh, OpenCTI, and Microsoft Entra. Subject matter expert for security tooling across 50+ VIP clients, with strong Python and PowerShell scripting for detection, reporting, and automation. CompTIA A+ certified; Network+ in progress; B.S. in Cybersecurity underway.

TECHNICAL SKILLS

Security Operations: Incident Response, Threat Detection & Triage, SIEM / EDR / XDR, SentinelOne, Wazuh, OpenCTI, Microsoft Defender, Mimecast

Identity & Cloud Security: Microsoft Entra / Azure AD, Microsoft 365 Security, Conditional Access, Intune, SSO

Threats Handled: Business Email Compromise, Account Takeover, Malware, Phishing / Vishing, Browser Hijacking

Automation & Scripting: PowerShell, Python, SQL, security reporting & compliance automation

Networking & Infrastructure: 802.1X / RADIUS / EAP-TLS, NAC, Cisco Meraki, Firewalls, VPNs, DNS

Tools & Platforms: ServiceNow, NinjaOne, CloudRadial, Hudu, BackupRadar, Cisco OpenDNS

EXPERIENCE

Symphona — Smyrna, GA

Aug 2024 – Present

Junior SecOps Analyst & Infrastructure Engineer

Nov 2024 – Present

- Resolve 200+ security incidents — Business Email Compromise, account takeovers, malware, phishing/vishing, and browser hijacking — across 300+ client organizations, averaging 1–3 minutes to full mitigation using SentinelOne, Wazuh, OpenCTI, Microsoft Entra, PowerShell, and Python.
- Serve as CloudRadial Subject Matter Expert for 50+ VIP clients, maintaining SentinelOne, backup, and compliance reporting across each portal.
- Built Python and PowerShell automation for an ITGlue-to-Hudu migration of 300+ client organizations and tens of thousands of assets — 95% first-pass success, with a reconciliation script recovering the remainder.
- Led a 30-site 802.1X / EAP-TLS deployment with RADIUS/NPS on Microsoft Azure, enabling certificate-based network access control.
- Recognized Subject Matter Expert for Hudu and NinjaOne; support 300+ client organizations.

IT Support Analyst — Intern

Aug 2024 – Nov 2024

- Automated SentinelOne, BackupRadar, BrightGauge patch-compliance, and Cisco OpenDNS reporting for all VIP clients, cutting manual reporting effort by ~17.5%.
- Performed daily backup-server verification for 50+ VIP clients to ensure recoverability.
- Integrated Google Workspace SSO and authored 750+ knowledge-base articles spanning Microsoft, Google, and iManage platforms.

PROJECT HIGHLIGHT

- Email Forensics Indexer (PowerShell) — Built a tool to index and parse .eml archives — MIME body extraction, keyword search, and progress tracking — for rapid investigation of phishing and BEC artifacts, with Excel-compatible output for reporting.

CERTIFICATIONS & EDUCATION

CompTIA A+ • CompTIA Network+ (in progress) • Google Data Analytics Professional Certificate (Coursera)

B.S. in Cybersecurity and Information Assurance — Western Governors University (Anticipated Early 2027)
